

CHUBB AGENT MOBILE APP. READY WHERE YOU ARE.

How to do more with our easy-to-use app

The Chubb Agent Mobile app distills some of the powerful features from the Chubb Agent Portal into an easy-to-use mobile app that empowers you to do more when you're away from your desk. It's the perfect companion to the Portal.

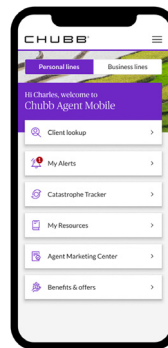

Take a tour of its top features for personal and business lines agents here.

Personal lines: Be indispensable

THE DASHBOARD

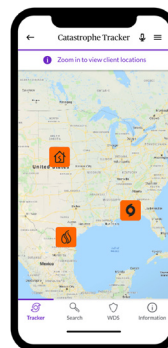

Access all the features of the app for personal lines here, including the Catastrophe Tracker, client details and billing, My Alerts and more.

KEY FEATURE: CATASTROPHE TRACKER

The app is home to our best-in-class Catastrophe Tracker, so you can instantly see whether your clients' Chubb-insured properties could be affected by upcoming catastrophes such as hurricanes, earthquakes, tornadoes, hailstorms, and wildfires.

Then, keep clients informed with invaluable updates in real-time.

Easier client management

View client details – including their policy, billing, claims and home assessments.

Share key documents such as ID cards and proof of insurance.

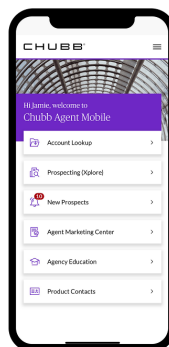

Get notifications for overdue balances and claims.

Business lines: Find opportunity everywhere

THE DASHBOARD

The app's top features for business lines are all just a tap away – find prospects with Xplore, access marketing resources and explore educational tools.

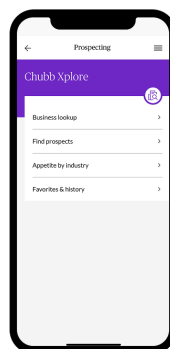

Marketing collateral

Access a range of marketing resources to help you talk to businesses about Chubb.

KEY FEATURE: XPLORE

- **Empower producers** to do more with our ultimate sales tool. Find prospects local to you, or within a specific class of business.
- **Match businesses to Chubb's appetite** using our easy business look-up tool.
- **See Chubb's up-to-date appetite** for any sector, simply by entering its SIC code.

Agency education

Teach your team about the power of Chubb, with courses they can access from anywhere.

The features you need, ready where you are

The Chubb Agent Mobile app delivers the power of the Portal in an easy-to-use interface. All its features are available in one place, with the same login credentials as the Portal – so it's easier to access than ever.
